

Evolution Perch

NEW KID IN THE STOCK

Evolution Perch – Product # 0560

The Evolution Perch uses the same active seating design as the Evolution Hemisphere, promoting improved posture, circulation and core strength. The increased height makes it ideal for use with sit-stand desks and countertops, and allows for a seamless transition between sitting and standing.

The features of the Evolution Perch include:

- Adjustable stool height from 23" to 31" to fit a variety of sit-stand desks, standard desks and countertops
- 360° swivel seat allows for easy movement, while base and circular footrest provide stability and support
- Lightweight, attractive and compact design
- Anti-burst half-ball seat with pump provided for easy inflation

A New Active Seating Option

Our new Evolution Perch stool is designed with the same active sitting principle as our original Evolution Ball Chair. Active sitting utilizes dynamic movement to promote core strength, improved posture and overall back health
